- I am currently an approved ASA Shotcrete Nozzleman Trainer and wish to be an Underground Shotcrete Educator.
*Being an approved ASA Shotcrete Nozzleman Educator is not a prerequisite to become an approved ASA Shotcrete Educator.

Date of examiner approval letter: _____.

- I am currently an Individual Member of the American Shotcrete Association, or my company is a Corporate Member of which I am a Corporate Additional Member or Corporate Primary Contact.*

ASA Member Number: _____ Membership Expiration: _____

- I have been in the field of shotcrete for _____ years.*

- I am knowledgeable in underground shotcrete and would like to serve as an approved Underground Shotcrete Educator for the American Shotcrete Association.

- I have attached my resume demonstrating basic concrete knowledge.*

- I have attached two letters of recommendation.*

***Required information to process Underground Shotcrete Educator Application.**

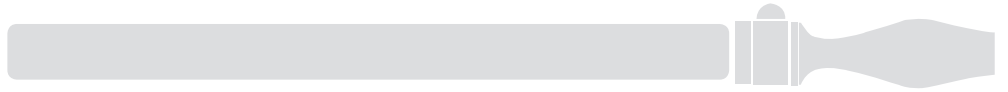

A. Mandatory Requirements

- 1) Member of the American Shotcrete Association.
- 2) Resume demonstrating basic concrete knowledge.
- 3) Approval by the Underground Committee of a submitted statement of qualifications with two letters of recommendation.
- 4) Meet a minimum of five (5) out of nine (9) qualification requirements as outlined in Section B.
5. Upon probationary approval, assist another Approved Educator in two (2) sessions, and “grandfather” existing ASA Educators who meet Underground Committee A & B requirements.

B. Qualification Requirements

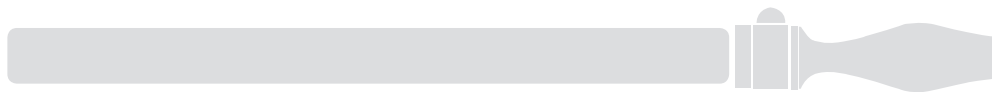

Indicate all qualification requirements that apply and include a detailed explanation within your Shotcrete Work Experience.

- Minimum of three (3) years of experience in underground construction as a miner, supplier with service exposure, engineer, or technician servicing underground shotcrete equipment.
- Minimum of one (1) full year of experience in underground shotcrete application as an instructor or service technician for shotcrete materials or equipment related to shotcrete.
- Safety training at a minimum of five (5) underground facilities, either mining or tunneling or any combination thereof.
- Minimum of three (3) years experience as a underground nozzleman or shotcrete robot operator.
- Minimum of three (3) years of experience presenting information regarding shotcrete applications or educational, marketing, service, or similar instructional presentations for shotcrete-related ground support products or shotcrete equipment.
- Minimum of three (3) years of experience in the design community directly involved with shotcrete specification or application and quality-control procedures.
- Minimum of three (3) years of experience in shotcrete materials or equipment manufacturing, sales, or service of the same with application experience.
- Minimum of three (3) years of experience in quality control or lab testing procedures related to shotcrete and concrete.
- Minimum of three (3) years of teaching experience.

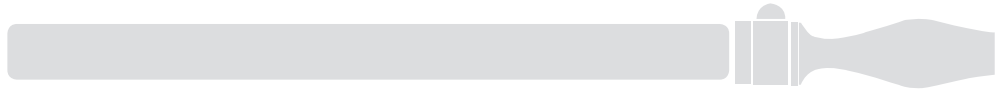

Underground Shotcrete Work Experience in 100 words or more:

Applicants should incorporate all indicated qualification requirements indicated on previous page.

Underground Shotcrete Knowledge in 100 words or more:

Applicants should specify attendance at classes, seminars, or conferences that pertain to the Underground Shotcrete process along with details on any training or education received within the last 5 years.

I have read and understand the responsibilities of an ASA-approved Educator and have completed all fields of this application for review.

I certify that the information provided on this application is accurate to the best of my knowledge.
